FULL SEASON:    Single \$470                                  Double \$765

**Please circle your payment option:**

\$200 deposit (Remainder due by April 1st)

Paid in full

**CSA Agreement:**

I hereby purchase a CSA membership for the 2018 season. Community Supported Agriculture is a relationship beyond a simple exchange of organic produce for cash. It is based on mutual respect between CSA members and the farmer. It is very important that members be mindful of the following:

A) I rely on income from the CSA to operate our growing production.

B) I plant and tend crops for months before the member sees them. Each CSA share represents the work and attention to detail that goes in to seeding, transplanting, weeding, growing and harvesting your vegetables.

It is my responsibility to grow nutrient dense vegetables for my members. It is the members responsibility to pick up their share on the appointed dates and times. Members acknowledge that although I am committed to growing high quality produce in accordance with organic standards, there are risks involved in the nature of agriculture (drought, disease, unpredictable weather, early frosts, rodents, crop failure). Risks are shared between farmer and member. I will do my best to provide a high quality bounty each and every week. Member acknowledges that refunds are not available, as I rely on CSA money to purchase seeds, greenhouse operation cost, and tools prior to market season. By signing below you state that you have read and agree to the terms above
